SYSTEM	:	

In a decision mailed by this Office on 04 October 2007, applicants' petition under 37 CFR 1.47(a) was dismissed without prejudice for failing to satisfy all the requirements of a grantable petition. Specifically, applicants had not submitted a declaration which could be accepted as having been executed by the cooperating inventor on his own behalf and on behalf of the non-signing inventor.

On 04 December 2007, applicants filed the renewed petition considered herein. The renewed petition is accompanied by a copy of a new declaration executed by inventor Ju Hyun BAN, which contains an unsigned signature block for the non-signing inventor Sang Won SON. The present submission does not include any indication that this declaration was not executed by Ju Hyun BAN on his own behalf and on behalf of the non-signing inventor. Accordingly, the declaration included with the renewed petition is accepted as having been signed by Ju Hyun BAN on his own behalf and on behalf of the non-signing inventor.

Based on the above, applicants have satisfied the final outstanding requirement for a grantable petition under 37 CFR 1.47(a).

The renewed petition under 37 CFR 1.47(a) is **GRANTED**. The application is accepted without the signature of non-signing inventor Sang Won SON.

A notice of the acceptance of the application will be published in the Official Gazette, and a letter informing the non-signing inventor of the application will be forwarded to the inventor's last-known address, as set forth in the petition.

The application is being referred to the National Stage Processing Branch of the Office of PCT Operations for further processing. The date under 35 U.S.C. 371(c)(1), (c)(2), and (c)(4) is 04 December 2007.

A handwritten signature in black ink, appearing to read 'RMR', is positioned below the text of the letter.

Dear Mr. SON:

You are identified as an inventor in the above identified United States patent application, filed under the provisions of 37 CFR 1.47(a) and 35 U.S.C. 116. Should a patent be granted, you will be designated as an inventor.

Alternatively, you may arrange to do any of the preceding through a registered patent agent or attorney presenting written authorization from you. If you care to join the application, counsel of record (see below) would presumably assist you.
